

NETSTOCK

**Joint webinar
opportunities
with Netstock**

We'd love to help you bring the story of inventory optimization & demand planning to life and we know that **a full webinar production can be a daunting task.**

Our team at Netstock has experience creating and delivering expert supply chain-focused content and can partner with you in solving your customers' key pain points and challenges.

While we can cover a wide range of topics, we've highlighted a **few core areas that we can create with you:**

#1: Best practices to optimize your supply chain

This webinar will focus on how a demand planning solution can help mitigate risk in times of supply chain disruption. There will also be a short demo at the end of the webinar.

#2: Netstock + (ERP software focus) = Better Together

This webinar will focus on the benefits to your customer by adding Netstock to their existing ERP solution by analyzing their data and providing predictive insights to drive confident decision-making. There will also be a short demo at the end of the webinar. Find our list of integrations [here](#).

#3: Navigating supply chain and (industry focus) challenges

This webinar will focus on the state of the supply chain and how it affects a particular industry, like manufacturing, retail, distribution and more. There will also be a short demo at the end of the webinar.

For each webinar, Netstock can provide you with:

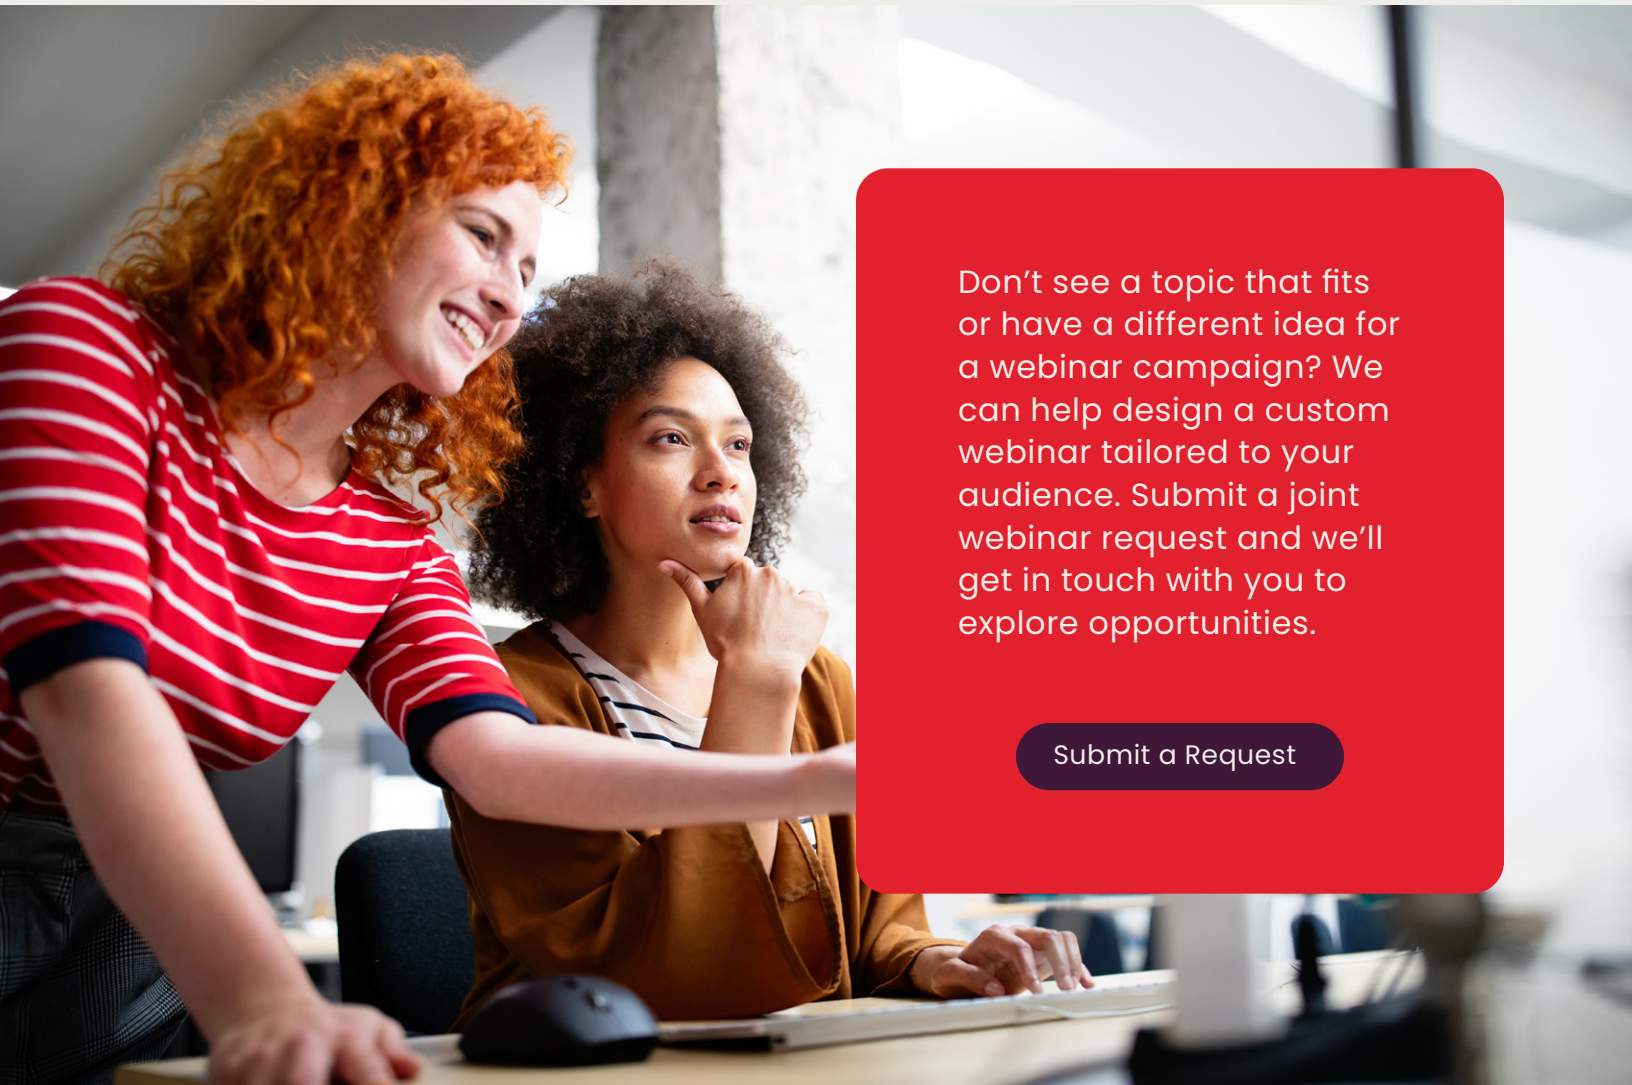

\ Email invitation content

\ Social media images

\ Presentation deck

\ Subject matter expert

\ Post webinar email content

Don't see a topic that fits or have a different idea for a webinar campaign? We can help design a custom webinar tailored to your audience. Submit a joint webinar request and we'll get in touch with you to explore opportunities.
